The “Go-to-High-School, Go-to-College” program, established in 1922, concentrates on the importance of completing secondary and collegiate education as a road to advancement. Through the Go-to-High-School, Go-to-College educational initiative, young men receive information and learn strategies that facilitate success.

Alpha Academy program provides young males (6th–8th grade) with positive role models and the skills necessary for academic success and productive citizenship. The program emphasizes positive self-esteem, health and wellness, leadership training and development, community service, and career exploration.
